

Table

Table- UT30

Overall dimensions of 1200mm in width, 750mm in depth, and stands at a height of 750mm. The tabletop is constructed with 25mm thick prelaminated particle board, which offers durability and a smooth surface for various applications. The gable end and modesty panel, both made of 18mm thick prelaminated particle board, provide structural integrity and contribute to the overall aesthetics of the table. All exposed edges of the table, including the top, gable end, and modesty panel, are meticulously edge banded using a machine at a high temperature of 200 degrees Celsius, ensuring a polished and professional finish. This table is also equipped with a mobile three-drawer pedestal unit, constructed using 18mm thick material and edge banded with 200-degree Celsius heat-treated PVC tape. The pedestal unit adds functional storage space to the table, making it a versatile solution for a variety of workspace needs.
